NEW YORK WILL WELCOME FOCH WITH CEREMONY

Allied Generalissimo Due to Land in U. S. Late Friday Afternoon.
PERSHING PRESENT
French Soldier To Attend American Legion Convention in Kansas City.

New York, Oct. 28.—Everything was ready today for New Yorks welcome to Marshal Ferdinand Foch, allied generalissimo, who was expected to arrive here late this afternoon, aboard the liner Paris to repay a visit which two million doughboys made to France a few years ago.

Foch will remain in New York less than an hour, after which he will proceed to Washington on a special train. He is later to attend the American legion convention at Kansas City.

A feature of the reception of the French commander will be the appearance of General Pershing among the welcome. Pershing is racing to this port aboard the George Washington in order to be able to greet the marshal when he sets foot on American soil.

The tugboat Lexington will leave the battery with the official reception committee consisting of the French ambassador, M. Jusserand, De Lancy Koutze, Wm. F. Degani, New York state commander of the American Legion; Gov. Miller, Mayor Hylan and a host of other prominent personages.

Marshal Foch will be escorted to the City Hall where Mayor Hylan will extend to him the freedom of the city. Thence he will follow the route outlined for all distinguished visitors to the Pennsylvania railroad station where a special train will await him for his trip to Washington. He is to have luncheon with President and Mrs. Harding tomorrow.

The George Washington, bringing General Pershing is expected to reach here about 3 hours ahead of Foch's vessel. This will give the American general an opportunity to go down the bay to meet the marshal. Authorities have provided numerous municipal steamers and ferry boats for admirers of the two generals.

Marshal Foch and his party, including Pershing, will leave Washington, Sunday morning, arriving in Kansas City Monday night. The route will be through Harrisburg, Pittsburgh, Columbus, Indianapolis, and St. Louis. Foch will spend Tuesday and Wednesday at the American legion convention in Kansas City. On Nov. 6 he will be in Chicago and on the way back the party will stop at Indianapolis, Camp Custer, Mich., and other points.

CAMPAIGN AGAINST BRITAIN'S PREMIER IS NOW UNDER WAY

Tory Bloc In House of Commons Engineers Powerful Drive

London, Oct. 28.—The greatest campaign of hostility directed against Premier Lloyd George since he took the post of prime minister in December, 1916, is under way today engineered by a Tory bloc in the house of commons. The unionist campaign against the premier is said to have the following for its chief objects:

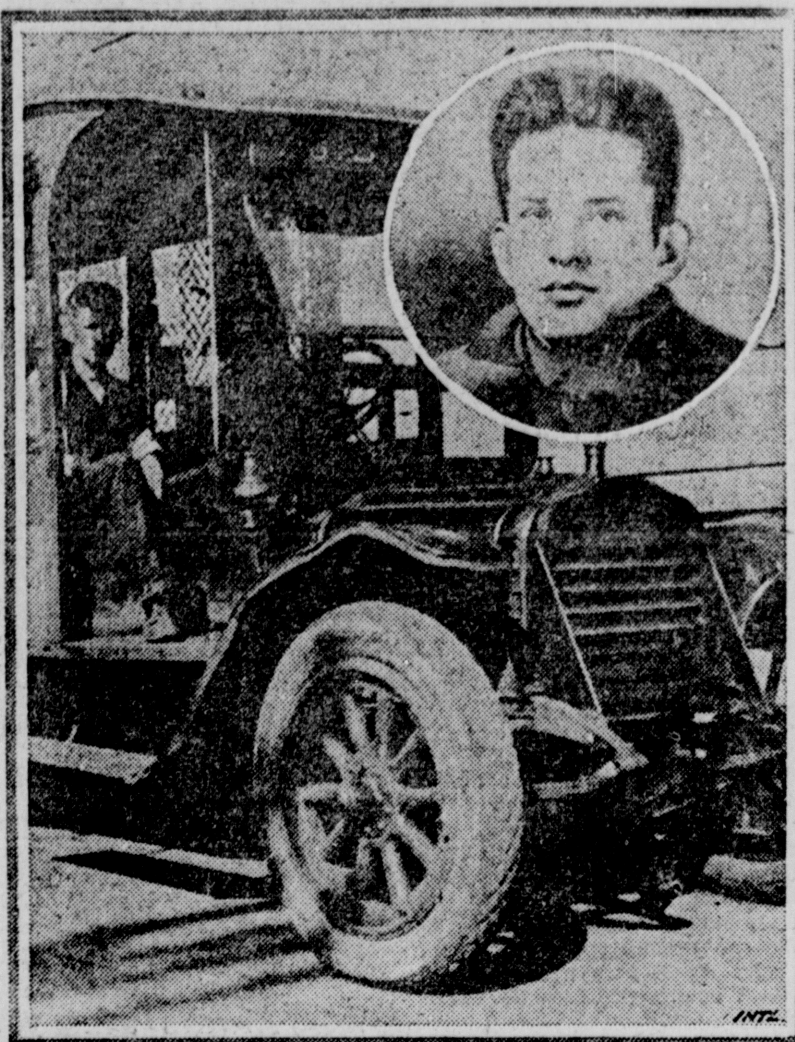

- 1.—Breaking down the Irish peace conference and the precipitating of a general election with Ireland as the main issue.
- 2.—Preventing the government from giving independence to Egypt.
- 3.—Preventing the premier from attending the Washington conference in person.

The resolution proposed by forty unionist members of commons ensuring the premier for the course he has adopted toward Irish peace will be up for a vote Monday. If it is rejected the premier will accept the result as a vote of confidence in his government and the vote will be regarded as a mandate of public approval. If the resolution should be adopted it would mean a lack of confidence in the premier. The political adherents of the premier believe the resolution will be completely snowed under getting only a negligible number of votes.

DRIVER OF LOOTED MAIL TRUCK

The daring mail robbery committed in New York's downtown section, at ten o'clock at night netted the robbers greater loot than was first estimated. It is now practically certain that the booty of the holdup men will exceed a million dollars. Frank Havrank, the driver of the mail truck, shown in the above photograph, was driving through one of the streets, when a touring car containing three men pulled up alongside the mail truck. They drew revolvers and forced Havrank to drive down a dark and lonely street. In the center of the block the driver was ordered to stop, and the holdup men looked over an assortment of fifteen pouches of mail and selected four containing securities and bonds. Post Office inspectors working on the case are of the belief that it is the same gang which committed similar robberies in Chicago and Los Angeles.

Government Pleased With Action of Union Leaders

President Believes Rail Labor Board Must Be Put On More Powerful Basis or Abolished—Seek Means to Prevent Recurrence of Trouble.

Washington, Oct. 28.—Highly pleased with the action of the railroad brotherhood leaders in deciding to rescind their strike order, administration leaders today indicated that they will not let the railroad problem rest.

President Harding on his return from the south today may issue a statement upon the settlement of the strike, it was said and it is fully expected that he will take up with his cabinet measures to prevent a recurrence of the threatened strike. The president has indicated his belief that the railroad labor board must be placed upon a more powerful basis or abolished altogether and it is expected here that the administration will seek congressional action which will give the board power to enforce its decisions. The president also is committed to a policy of freight rate reductions and with the strike order rescinded, it is believed that he will lend his influence to such a movement.

Cancellation of Debts By England Affects U. S.

British Newspaper in Commenting on Suggestion That Economic Ills Be Corrected By Cancelling Debts, Says One Owed This Country Will Be Paid.

Manchester, England, Oct. 28.—Cancellation of the allied war debts, as recommended by former Chancellor of the Exchequer Reginald McKenna, in a recent speech, would hit the United States harder than any other nation, The Guardian is one of the most influential papers in the United Kingdom.

"After reading Mr. McKenna's speech, one begins to think that soon there will be none left believing that the huge international debts owed by one country to another will be paid even if they could be paid," said the Guardian. "Two of the biggest annuities are France and the United States. But although the French reparations claims exceed all Europe's debts to the United States they do not afford the same degree of security. Moreover, France has large debts owing Britain and America."

"Britain owes just about as much as she is entitled to receive. Therefore, cancellation of the debts would hit the United States a great deal harder than any other nation. It is not surprising that America is not enthusiastic over the debt cancellation proposal."

"There are several arguments advanced in favor of debt cancellation. Then, too, there are sentimental arguments. But that does not apply to the British debts or the German debt to France."

"From an international economic viewpoint complete cancellation of all international debts incurred since the outbreak of the war would be a 'rough and ready' but probably a satisfactory solution of the economic ills."

MANY INJURED IN RAIL CRASH; HAYS IS HURT

Postmaster General Suffers From Shock—Thrown From Berth

FOG IS BLAMED

Express Ploughs Into Local Train Near New York Thursday Night.

New York, Oct. 28.—Scores of persons, including postmaster General Will H. Hays, were injured today when the midnight express on the Pennsylvania railroad for Washington crashed into the rear end of a local train near the Manhattan transfer on the Jersey Meadows. Rush Simmons, chief post office inspector, sustained severe injuries. Hays suffered from a shock and strained muscles according to his physician.

The collision occurred while a dense fog hung over the Meadows. It was feared some of the passengers on the express suffered fractured skulls.

Hays was taken to Waldorf Astoria hotel here where he was treated by an osteopath, who declared there were no bones broken, but that the postmaster general had sustained a very severe shock and that his muscles were badly strained.

Dr. Lee H. Frankel, vice president of the Metropolitan Insurance Co., also suffered from shock.

"I am afraid the collision may be worse than appears just now," Hays said. "I am afraid Chief Inspector

Will H. Hays.

Simmons may have been badly hurt. He was being attended by a surgeon at the Manhattan transfer when I left the scene of the wreck.

"I was just doing off when about a half mile this side of the transfer point the train gave a jolt and we heard the crashing of something ahead. I was thrown from my berth and landed rather heavily on the floor of the car. Others in berths around me were thrown to the floor. The lights in the car went out, for a moment, and then went on again. We picked ourselves up and started toward the trucks. We saw that the express had struck the rear end of a train ahead. The local train had stopped near the transfer and in the fog had not been observed by the engineer of the train."

Fifteen persons were taken to hospitals for treatment following the wreck.

ROTARY CLUB WILL LEND HELP TO LOCAL SCHOOL

Members of the Xenia Rotary Club have pledged both moral and financial support to the needs of the Opportunity School conducted in the Parish House on Whiteman Street. At the meeting of the members held at the Elk's Club, Friday, a committee was appointed to investigate the activities of the school and to anticipate any needs of the pupils which the club could supply. The committee is composed of F. L. Smith, Dr. B. R. McClellan, Dr. R. Kent Finley, and Judge R. L. Gowdy.

Members of the club have pledged \$50 to the use of the school for the purpose of furnishing the noon day lunches for the pupils. In addition to this amount \$25 will be furnished the school for the purpose of purchasing tools for use in the Manual Training Department of the school.

The committee appointed to look after the interests of the school will also act in selecting a new building which the pupils will later occupy. The plan of moving the school to larger quarters in connection with the plans for developing the school in every line.

The committee will also cooperate with other interests in the city in selecting a building for the purpose of instructing crippled children of the city. As the result of a recent state law, \$300 is provided by the state in providing for each crippled child. A survey of the crippled children of the city is being made, and plans are being laid for a school to be established in the city for their instruction and care.

EVELYN NESBIT ATTEMPTS SUICIDE

New York, Oct. 28.—Evelyn Nesbit, former wife of Harry K. Thaw and central figure in the two famous murder trials of the latter attempted to end her life by taking ten grains of morphine in her living quarters above her tea shop at 235 West 52nd street this afternoon.

Almost immediately she repented her action and called her lawyer, notifying him of what she had done. A physician was hastily summoned and it was said she would recover.

CHARLES WILL NOT RENOUNCE THRONE CLAIM

Take Steps to Convene National Assembly to Vote on Issue.

Budapest, Oct. 28.—Former Emperor Charles has refused to renounce the Hungarian throne for himself and oldest son and steps were taken today to convene the national assembly to vote de throneism.

Charles, after his capture by Hungarian nationalist troops, feared that he was about to meet the same fate as the late Russian czar. He pleaded that Count Andrássy, Count Gratz be allowed to accompany him to the convent at Tihany, on Lake Balaton, where he was temporarily interned.

The ultimatum which the "little entente" was reported to have sent to this city has not been delivered so far as learned. It was reported from Budapest that this ultimatum gave Hungary 48 hours to turn over Charles to the "little entente. The little entente consists of Jugo-Slavia, Czech-Slovakia and Rumania.

It is learned from a reliable source that the allies are bringing pressure upon Belgrade and Prague to compel abandonment of the warlike attitude of these capitals. The allies warned the little entente that the continued military measure aimed at Hungary might cause a reaction in Hungary in Charles favor.

FOUND GUILTY AND FINED ON CHARGE IN COURT, FRIDAY

Thurman Wilson, found guilty on a charge of carrying concealed weapons, was fined \$500 and costs in Common Pleas Court Friday morning.

Wilson was indicted by the last Grand Jury and found guilty by a petit jury in Common Pleas court several days ago.

He is also involved in the liquor cases now being tried in Police Court, it being alleged that he procured the quart of whiskey from Mrs. Theresa Blair, North West Street, which led to the latter being brought into Police Court on a charge of selling, furnishing and delivering illegal liquor.

Wilson was fined in a Lebanon Court on a liquor charge several months ago.

OUTLINES HOSPITAL PLANS AT MEETING OF ROTARY CLUB

Detailed plans for the new McClellan Hospital were presented by Dr. B. R. McClellan to the members of the Rotary Club, at the regular luncheon of the members held at the Elk's Club Friday.

The plans for the new hospital were made by Dr. McClellan with the assistance of his son, and were the result of Dr. McClellan's experience while serving in the medical service in the army. Upon their completion, the plans were submitted by Dr. McClellan, to the State which returned them with a letter complimenting Dr. McClellan upon the excellent plans. Officials expressed the opinion that effort would be made to introduce the plans into the State Building Code.

The plans for the new hospital, as outlined by Dr. McClellan, are for four separate hospital buildings, each to be managed entirely apart from the other buildings. A nurse will be installed in each building with the title of matron who will have charge of the other nurses. Instructions will be given the management and nurses of each hospital for the most careful attention to the patients, to insure absolute comfort.

Blue prints of the four buildings were inspected by the members of the Rotary Club, in connection with Dr. McClellan's address.

WALKOUT SCHEDULED FOR SUNDAY BROKEN LATE THURSDAY NIGHT

Leaders of Railroad Unions Bow to Power of U. S. Government Which Stood Back of Movement to Prevent Strike—Could Not Defy the Administration.

LABOR BOARD WAS NATION'S TRUMP CARD

Settlement Based on Assurance of Board That No Further Wage Cuts Will Be Acted Upon Until Controversies Over Working Conditions are Adjusted

Chicago, Oct. 28.—Cabalistic messages built from a code known only to officials of the railway brotherhoods were on the way over the wires today, carrying a message of peace in the bitterest industrial controversy the United States has known in years. The messages will be sent to every general chairman of the "big four" brotherhoods and the switchmen's union of North America, by the grand chiefs of these organizations. They direct that the railroad strike set for Sunday morning be called off. They sound the death knell of a walkout that threatened to seriously cripple if not paralyze the transportation system of the country.

The end of the strike came just before midnight last night after hours of bitter fighting. "The strike is off" was the laconic statement made this morning by W. G. Lee, head of the brotherhood of railway trainmen, at the close of the historic session. Throughout virtually all of yesterday the executive councils of the brotherhoods had fought behind closed doors to decide the issue of war or peace.

Peace came, it was admitted by union leaders today, because the sovereign power of the United States government stood back of the movement to prevent the strike.

"We could not defy the authority of the United States," said Lee Sheppard, chief of the conductors. "We thought we were hitting at the railroads but found our attack was really directed against the government. We saw that it would be futile to carry out strike orders."

The United States Railway Labor Board stands out today as a rejuvenated and powerful agency for the stabilization of conditions in the railroad industry.

The board was the trump card of the government in its fight to avert the strike and it won.

If the board was the trump, however, the "ace in the hole" was the department of justice, or the law-enforcing agency of the federal government. Back of the efforts of the labor board to mediate the controversy was the preparations being made by the department of justice at Washington for procedure against the unions for violation of the transportation act if the walkout resulted in serious interruption of traffic.

It is no secret that the fear of being "outlawed" by the labor board and declared ineligible to share the benefits of future decisions of the board with regard to wage schedules and working rules was a factor given much consideration by the brotherhoods.

Settlement of the controversy as was pointed out, yesterday, is based upon the assurance by the labor board that no petitions by the railroads for additional wage cuts will be acted upon until all controversies over rules governing working conditions are adjusted. This was coupled with the promise of the railway executives that no wage reductions would be put into effect without due procedure before the labor board.

Hours of bitter debate raged around the sufficiency of these assurances it was apparent that the brotherhood leaders were considering the attitude of the membership of their organizations. The big question apparently was whether the men would follow the advice of their leaders and consider the assurances given by the labor board and the railroad as "satisfactory settlement" of the controversy. If any unauthorized walkouts occur, it is believed they will be sporadic.

Three men stood out today as peace makers, chief credit is given to Ben W. Hooper, chairman of the public group of the labor board and former governor of Tennessee. Hooper believed to be acting as personal representative of President Harding, assumed the leadership in the board's efforts to avert the strike. He went personally before the union leaders yesterday and laid before them the assurances of the labor board.

Hooper's plea to the union leaders won over W. G. Lee, head of the trainmen, and Lee thereafter led the fight for peace at the union conference. It was a stubborn fight but a winning one.

W. L. McMenamin, a member of the labor group of the board likewise had a hand in the peace negotiations. It was McMenamin, a former member of the trainmen, who arranged for the appearance of Hooper before the union chiefs.

The decision to call off the strike came when the conductors and engineers joined with the trainmen. The firm, of whom W. S. Carter is the head, held out to the last for a strike. The switchmen did not vote since the action taken by the trainmen, conductors and engineers was sufficient under the rules of the "big five" to bind the other two. The official vote to call off the strike was 250 in favor of rescinding the strike

THUGS MURDER AKRON MAN IN BLOCK OF HOME

John L. Henninger Shot to Death In Fashionable Part of City.

Akron, Oct. 28.—John L. Henninger was murdered by two highwaymen within a block of his home, Ardmore Avenue, last night. Henninger was vice president of the Henninger Supply Company.

Shortly after 8:10 as he was near his home, two unknown men stepped from behind a tree and demanded his money. Henninger apparently was in the act of complying with the request, as several bills were found in his hand.

Two shots were fired and neighbors who hurried to the scene found the prostrate figure of Henninger while in the distance two men were making their escape. An ambulance was called but Henninger died before reaching the hospital.

This is the first holdup reported this fall in the fashionable residential section of the city.

A police flying squadron was hurried to the scene and two men are held for inquiry today.

HAYNES DECLARES USE OF BEER NOT EFFECTIVE IN OHIO

Believe Congress Will Pass Law Nullifying Mellon's Ruling.

Columbus, Oct. 28.—That Secretary of the Treasury Mellon's recent ruling authorizing the use of beer as medicine is not effective in Ohio is the assertion made here by federal prohibition commissioner Haynes who conferred with federal prohibition director Russell and state prohibition commissioner Parker relative to the Ohio situation.

Haynes supported the recent declaration of Commissioner Parker that the McCoy act, passed by the last state legislature, prohibiting the use of beer as medicine, nullifies Secretary Mellon's ruling so far as it applies to Ohio. Haynes believes congress soon will pass the Willis anti-beer bill. Such action would completely nullify Mellon's beer ruling. "The public is beginning to realize that the real bootlegger is not the fellow who sneaks back alleys and peddles poisonous liquor on profit, but unscrupulous men of unlimited means who stop at nothing to accomplish their purpose," said Commissioner Haynes. "I am gratified in the conviction that the bootlegger menace will soon be overwhelmingly throttled."

The Markets

STOCKS

The market showed an improved tone as the week began due partly to the rise in sterling, some advice from industry and especially the certainty that only a minority of railroad employees would strike. The optimists were quick to discern the beginnings of a substantial upward movement but brokerage houses took a conservative view, feeling that the time is not yet ripe for a sustained advance. Such an advance is hardly possible, until the strike clouds have vanished from the horizon. The stock market is not apt to cast off uncertainty until wage readjustment and industrial recovery have made further progress. Setbacks will follow sporadic upturns. The public displays little interest in speculative dealings as yet.

GRAIN

Wheat reacted from its oversold condition but traders were doubtful as to the permanency of the gains recorded. Export business has been dull with domestic milling demand fairly good. The probabilities of a settlement of the railstrike were a great help to wheat, as was a falling off in the visible supply, quite unexpected. The Argentine and Australian harvest will commence in about six weeks, introducing a new element of competition. Lower prices for wheat are quite possible when this grain from the Southern hemisphere gets into European markets. Corn and oats are in a rut and reflect the action of wheat.

LIVESTOCK

Stockers and feeders have met broadening demand and the worst is doubtless over for the year in this branch of trade. The large corn crop and low prices on corn encourage feeding. Corn-fed cattle are growing scarce. Every market has been liberally supplied with grass cattle, but feeder demand has strengthened the buying and further appreciation in prices may occur. The hog market has been in a more healthy condition than prevailed three to four weeks ago; while live mutton has seen-sawed, nevertheless, giving evidence of a healthy undertone.

COTTON

The government report on ginnings to October 18 at less than 5,500,000 bales, disappointed the bears, who had predicted a larger total and boosted prices suddenly. Better strike news aided. The crop will turn out about as the government predicted. Picking is much in advance of last year. Growers in many sections are selling all their cotton as fast as it is ginned evidently determined to take no chances on a fall in the market. Prices seem due to hold their level in the main until the general situation changes. The position of Germany is of course a bearish influence.

WOOL

A fair amount of business is done regularly in the wool market with prices firm and lower grades appreciating in value. The trade is well distributed. The foreign markets continue strong. Mill activity increased slightly during September except on broad looms. Tariff uncertainties kept carpet manufacturers from buying actively.

METALS

Demand for structural steel is increasing. Buying in general continues of a hand-to-mouth variety. Ingot production increased steadily throughout the past three months, but the entire industry is marking time at present, holding its gains. Consumers expect lower prices as the result of lower freight rates. The steel corporation has lowered prices on steel rails \$7.00 per ton as a significant act. Consumers have shown comparatively little interest in lead and copper lately.

AGRICULTURE

The clouds which have hung heavy over agricultural industry are thinning. Successive measures passed in Congress have brought relief or the promise of it. Now the Interstate commerce commission, recognizing that agriculture has suffered unduly in the process of deflation and that rates on grain and hay are out of proportion to rates on other commodities, has ordered a reduction of about 16 per cent in freight rates on these products carried by Western roads. Other reductions may follow with a view to balancing costs and assisting in the general recovery of business.

The new rates take effect not later than Nov. 20. The farmers will not get the full benefit of this revision as a large part of this year's crop has left the growers' hands. The middleman will profit, as usual. Next season both winter

and spring wheat will move at the new rates, or at lower rates. Quite possibly the change will produce a larger movement of hay this fall and winter than would otherwise have occurred.

Senator Sapper, presumably backed by the Agricultural bloc in the senate, is determined to repeal the six per cent guarantee clause in the Transportation act and to restore to state commissions authority over intra-state traffic before allowing passage of the Railroad Funding bill. The six per cent clause does not make provision for times of extreme depression when even high rates fail to produce the necessary revenue yet further raise in rates would defeat its own end by reducing the amount of traffic. Seemingly it is unfair that any industry should enjoy special favor, as do the railroads, in seasons of poor business, when most concerns are losing money. Yet the six per cent "guarantee" concerns rates merely and cannot guarantee returns. It is an unfair rule that doesn't work both ways and if the government assumes to restrict railroad revenues to six per cent when other corporations are earning vastly more it must in fairness keep faith by doing its best to maintain the rate when times are hard. No one will deny the justice of this proposition however much he suffers by reason of high freight rates.

TEE, FAIRWAY, AND GREEN BY CHICK EVANS

I was thinking the other night of whom I envied most as a golf player. On many occasions people have complimented me by hoping that their sons would grow up to play as I do but I feel that I have made a great many mistakes and am far from being an ideal golfer.

If I had a boy and I wanted him to be a champion I believe I would take him out to watch the following men play golf and tell him to pattern after them. First of all I should want my son to be a good wooden club player. With this in mind the name of the great British player Arden, comes to my mind, but as he is in England he is too far away to be seen. Next to Arden I believe I like Bob McDonald and his wooden club play the best of all professionals. Rudy Knepper, and this may surprise you, I think has the best full swing style of any of our amateur players. I like the way Francis Outmet drives in brassies with the qualification that I am never sure whether they are going to be on the court. Jessie Gellford, our champion, gets great distance but he is always in danger on a fast course where his terrifically hit ball keeps going deeper into trouble when his shots are a little off the line. I believe there is more rhythm in Rudy Knepper's strokes. And somehow I like rhythm because it is so closely related to gracefulness. I believe that Bobby Jones is

as fine a long club player as there is swinging a club today. With his great strength he gets long distances and as everyone knows is greater with iron clubs than with wood. He is usually very accurate. I stood just behind the ninth green at St. Louis and waited for Bobby to play his second shot from a high hill very far away. I saw the polished blade gleam in the sunlight. A white ball outlined itself against the blue sky and at the moment I expected to see its strength spent, I saw it sort of leap forward again for additional distance. Surely Bobby Jones has something extra in his long iron shot.

When it comes to the half shots I would like to see a boy pattern after Jack Hutchison. For half shots in the air Jack has no equal. He is also master of the cut shot. I am always glad when he gets around to the green for I like to see the ball pitching on to it.

Of the amateurs I do not really know who I would pick. Perhaps I am so prejudiced on the way I play them that I do not think the others do it quite the right way. And yet my very light grip, wherein I use only a sense of touch for these shorter shots is absolutely worthless on a rainy day. Some day they will call off golf matches as they now do tennis matches, baseball matches football matches and every other kind of an outdoor contest when it rains terrifically hard. It may be best if only for the reason that the spectators are able to enjoy it.

I believe Jim Barnes is the finest chip shot player in the world. Jerome Travers used to have a distinct advantage for that little troublesome shot just off the edge of the green.

When it comes to putting I believe Francis Outmet has the best style and execution. I say this in spite of the fact that he, too, has his off days. I heard it said at St. Louis that he took three puts on many greens of those closing holes in his match with Johnston, but he has great style and a fine hold way of hitting the ball. Jerry Travers is perhaps our greatest putter.

In match playing we have never developed a golfer who is so abundantly at home in a man-to-man contest as Walter Hagen. In medal play I would prefer Jim Barnes for he always has a good score.

Outside of all the ability to play one must have natural ability for

competition. This includes temperament. It is a large subject and will be discussed in another article.

McDUFFIE TALKS TO BIG AUDIENCE THURSDAY EVENING

Despite the verbal protest of Prosecuting Attorney J. Kenneth Williamson, the Rev. S. Douglas McDuffie, colored evangelist, under indictment here spoke to another large audience at the Opera House, Thursday night.

Members of the City Commission in session, Thursday night, took no formal action on the protest of the Prosecutor against McDuffie appearing at the Opera House, and which the Prosecutor characterized as "an insult to the morality of the people of the city."

The Commissioners discussed the protest informally, but came to the opinion that they can do nothing to stop the meeting. They are basing their position on the fact that a committee of colored citizens, composed partly of women school teachers, rented the Opera House and are paying for it, and that they had no dealings at all with the Rev. McDuffie. They say they cannot deny the use of the Opera House to any citizens, provided it is not used for immoral or law-breaking purposes as religious meetings are now being conducted that it is impossible to cancel the arrangement.

At the close of the meeting Thursday night, a representative of the Business and Professional Women's Club handed City Manager Zell a written formal protest from that organization against the further use of the Opera House for the McDuffie meetings. A minister, who requested that his name not be divulged, also entered an informal protest to the Commission, but the rumored action from the Ministerial Association protesting the arrangement, was not forthcoming.

Prosecuting Attorney J. Kenneth Williamson, said Friday, that he had received numerous written and oral requests from all over the city, to stop the continuance of the meetings. He said, however, that he had gone as far as he could and that if the City Commission continued to permit the use of the Opera House for that purpose, that his hands were tied.

In the meantime the colored people in charge of the meetings went forward with their plan to hold the third meeting at the Rink. This was necessitated by the fact that a musical comedy was to be presented in the theater Friday night. Friday morning, the musical show cancelled, but the arrangements for holding the McDuffie meeting at the Rink continued. It was said, that owing to the crowds that wish to hear the evangelist every evening, that the Rink may be adopted permanently for the rest of the meetings, if heating and seating facilities can be provided.

Thursday night, the Rev. McDuffie told his hearers to close their eyes and their ears, and pay no attention to his troubles, but let him take care of his own business. He used Elijah as the subject of his sermon, and with a display of dramatic ability, in which he drew on his hearers for aid, pictured the strife of that Biblical character until he had his audience worked up to the height of religious zeal.

LOCAL GOLF PLAYERS DEFEAT WASHINGTON

Eight players from the Xenia Country Club defeated a similar number of golfers from the Washington C. H. Country Club, two up in a match contest on the local links, Thursday afternoon.

Owing to the rainfall early in the day, the match was at first called off, and later agreed upon again the woman contestants however, not attempting to play on the muddy links.

Roy Ary and C. H. Little, defeated their opponents Hitchcock and Brown, three up; E. J. Reynolds and McKay defeated Allen and Griffin of Washington, one up; John Davidson and William Smith of Xenia lost to Lines and Kibler, of Washington and Griffin and Nicholson defeated Almon and A. H. Finley of the local club, one up leaving the Xenia players 4 to 2 or two up for the match.

Ary turned in a score of 48 against Hitchcock's 54 and C. H. Little turned in a 50 to Brown's 51 in the opening match, the locals winning three up. Reynolds and McKay turned in 54 and 55 respectively to their opponents' 61 and 55 thus giving the Xenia players the edge that won the match.

OIL MEN BANQUET AT ELKS' CLUB ON THURSDAY EVENING

That the volume of business of the Oil Company, has greatly increased this year over last year, was the announcement made, Thursday night, at the banquet and get-together meeting of directors, executives and employees held at the Elks' Club at 6:30 o'clock.

There were covers for twelve people, several officials being out of the city, and all were called on to respond to brief toasts.

Changes in the personnel of the stockholders, directors and officers of the Xenia Oil Company, all of which have taken place within the last two months, have resulted in entirely new blood now forming the organization. The re-organization has brought to Xenia a number of oil men from Dayton and Springfield who are now interested in the local company and are making their homes in this city.

The talks at the banquet, Thursday night, were based on the business of the concern, which officers say has been enjoying a steady and healthy growth in business. S. J. WE TAKE MUCH STOCK IN THE OPINION OF THIS LEADING ENGLISHMAN.

In the event of a clash of arms on the Pacific or elsewhere involving the United States, Great Britain without question would support the United States, according to the personal opinion voiced by Lord Northcliffe in an interview Saturday with Japanese newspaper men who came to Manila from Japan for the purpose of talking with him, says a dispatch to the London Times from Manila.

Replying to direct questions Lord Northcliffe declared it was his belief that should such a clash occur the whole family of British nations would stand beside America, just as the American people had stood beside the British in the still smoldering conflagration of Europe. Lord Northcliffe added that it seemed inconceivable that any contingency might arise to menace seriously "the inviolable and impregnable bonds that make the English-speaking peoples one in the ultimate and supreme issues of humanity."

With reference to the renewal of the Anglo-Japanese alliance, Lord Northcliffe said he believed he knew the general sentiment of the British people, but that he was not ready to make any definite statement at present. He suggested that the Japanese newspapermen should advise their representatives to take up this question with the Japanese delegates to the Washington Conference.

"Lord Northcliffe," the dispatch says, "has repeatedly commented on the amazing generosity of the United States in the handling of the Philippine problem and the treatment of the Filipino people. He has been deeply impressed with the wonderful school system established by the Americans, and has declared there is none better anywhere in the world. He frankly asked various Filipino statesmen and officials how the Philippines would or could carry on if America should get out. Without exception, the question remained unanswered, except by puzzled silence. He told them they already had all the essentials of independence, plus immunity from international entanglements bestowed by a great and beneficent Power through American world prestige and military power."

"Moreover, he said President Harding had sent to them General Leonard Wood, who not only was a great American, but a great international figure, who Lord Cromer years ago said probably was the most robust and able Colonial administrator of modern times."

THE AUDIENCE HAS DWINDLED TO A DISTINGUISHED FEW

1901--Twenty Years Ago--1921

At the last meeting of the Business Men's Association, a committee was appointed to make a canvass with a view of determining whether enough members could be secured to justify the continuance of the organization for another year.

A number of passengers on a D. and X. traction car were given a bad scare last night and were shaken up in a lively manner by the collision of a late car with a

cow near the County Infirmary. Dayton is to have a Market Arcade building which is to cost in the neighborhood of \$400,000. A party of 28 hunters started from Dayton, Monday, in a special car, bound for the mountain regions of Maine for a big deer hunt.

Mr. S. B. LeSourd returned last night from a business trip to Urbana, Sabina and Cincinnati, where he was engaged in adjusting losses by fire.

BEAUTY CHATS

THE THROAT AND NECK

As I have often said in this space, age shows on the throat and neck sooner than in the face. This part of the body should never be neglected in any course of beauty treatments, and yet unfortunately it is almost always overlooked. Of course it is always possible to cover up a bad neck by wearing collars, and yet high collars only make the face look older. Flat or low collars, open a little in the front, give one a youthful appearance.

Another reason why I am astonished at the neglect of the throat and neck is that it is much more easily treated than the face. If you want to eliminate wrinkles from the throat you can massage with cocoa butter which is too heavy for the more delicate complexion of the face.

The treatment is somewhat the same as the face treatment. Wring an old towel from hot water and wrap it around the throat for a moment, long enough to open the pores of the skin. Then use cocoa butter or olive oil, and massage thoroughly until the skin seems to have absorbed all it will hold. Exercises are good and should be practiced in connection with massage, in fact they are even more beneficial if they are done while the emollient is on the skin.

The best exercise is that of rolling the head around and round over the shoulders, bending it and stretching it as much as you comfortably can. The cream can then be wiped off and ice or some other astringent used to end the treatment.

Peggy—With brown eyes, chestnut hair and color of the complexion, you should wear all the rich browns and yellows, especially that of burnt orange. All of the autumn shades will be your colors and the pastel ones, such as french-grey and delicate tints from all colors.

H. J. G.—Develop the upper part of the body by deep breathing and massaging the tissues with any nourishing oil, such as that from coconuts or cocoa butter.

Hopeful—The skin should be cleansed first in any treatment and the ice is used at the end of it to clear the skin of blackheads, open the pores with a hot damp cloth, holding it over the place until the skin has been softened and steamed. The blackhead powder or some cleansing cream will then be used to remove this hardened substance, but do not keep up this treatment until the skin is irritated, as it will require many such treatments to entirely dislodge this soil from the pores.

BELLBROOK

Mr. and Mrs. Allen Davis will move to town, March 1.

Robert Glynn and family of Dayton were Bellbrook visitors Sunday. A few local fishermen went angling in Anderson's Fork this week. A proposition for an additional school tax will be submitted to the voters Nov. 8.

Mr. and Mrs. Elmer Chenoweth, of New Madison, Ind., visited J. W. Anthony and family this week.

Harry Gibson, who has been working in Dayton, is spending a few days at home.

Marshall Stockman has secured a position on a city car line in Dayton.

Dr. and Mrs. Shoemaker will move into the property recently vacated by Mr. and Mrs. Edward Stuck.

B. F. Thomas has purchased a new Ford automobile. Mr. and Mrs. William Baugman, who have been in charge of the Fresh Air Farm for two or three years are making arrangements to move to town.

Charles Underwood, who has conducted a barber shop in the village for a number of years, has taken into his business as a partner, Elmer Wetzel, formerly of Zimmerman.

DISTRICT ATTORNEY TARGET

Boston, Mass., October 28—Attorney General J. Weston Allen filed with the Supreme Court a petition for his removal from office of District Attorney Joseph C. Pelletier, of Suffolk County. The charges on which the petition was based were of alleged instances of malfeasance, misfeasance and nonfeasance in office.

Styles BY LENORE

PARIS. Two important features indicate the extreme newness of this blue serge dress. The draped waistline, drawn into the figure by the jet cabochon at the side where the back of the bodice is brought around to the side front for fastening. And the transparent sleeves, colorful with delicate embroidery tracings in soft rose and silver. Note, too, the cut of the sleeves, which, though fitted at the armhole,

flare out gradually into quite a circular shape at the wrist, which is emphasized by the deep band of rose chiffon. The hem is fashionably irregular, broken by the funnel-shaped panel effect at the side. Not a gown this for the small woman, and not a gown for the kind of hard service usually demanded of a blue serge dress but I include it for the attractive suggestions it offers in the way of a new silhouette and the novel sleeves. It is a design which will lend itself very gracefully to

METEORS TO PLAY SAXONS SUNDAY

St. Brigid's Meteors will not even pause for a mid-season breathing spell, before jumping into the fray again Sunday afternoon at Reserve Park to defend their title against the Dayton Saxons.

The Saxons have accomplished considerable results this season under Coaches Rachford and Haller, and are hoping to keep up their record by trimming their foes Sunday. They realize however, that their work is cut out for them, for the Saxons boast an 140-pound team that has been taking them all into camp this season.

The Saxons recently defeated the Junior team of the University of Dayton.

Rippling Rhymes by Walt Mason

THE IDEAL CLIMATE.

I'm living in a pleasant valley, with no extremes of heat or cold, and here the aged and weary rally, to linger till their knells are tolled. No blizzards, with their angry roaring, disturb our calm, or records break; we are not frozen while we're snoring, or broiled or baked when we're awake. The days are mildly warm and hazy, the kind of days good judges pick; and we've all grown so all-fired lazy we lack the pep to make a kick. All day we bask on strips of lumber, all day we loiter in the sun, and nod and yawn and sample slumber and put off chores that should be done. And this will do for ancient fellows with shining domes and rheumy glims, who suffer from asthmatic bellows, and spavins on their starboard limbs. But if I had an heir-apparent, and he desired to anchor here, I'd say, "Augustus John, you daren't—'twould make you worthless in a year. Here we old graybeards herd together; we don't need pep, for we are through; but young men need some wintry weather to tone up heart and brain and thew. The raging blizzards are unsightly, but they are better for a man than languid winds that come politely and make of him an also-ran. I don't indorse 'the perfect climate,' devoid of elemental stress; I have good reason, and I'd rhyme it, but I'm too lazy, I confess."

WILBERFORCE WILL PLAY LINCOLN ON SATURDAY HERE

Lincoln University, Philadelphia, Pa., will invade the State of Ohio for the first time in the history of the institution, Saturday. The Quakers came as a member of the "Big 8." The "Big 8" is a recently composed conference between the eight leading and most outstanding colleges of the Negro race. It consists of Lincoln University, Philadelphia, Pa.; Howard University, Washington, D. C.; Hampton Institute, Richmond, Va.; Kentucky State, Louisville, Ky.; Fiske University, Nashville, Tenn.; Roger Williams College, Nashville, Tenn.; West Virginia College, Charleston, West Va. and Wilberforce University, Wilberforce, Ohio.

Wilberforce defeated Kentucky State last Saturday at Louisville, Ky. by a score of 6 to 0. With this victory and the work of all the Ohioan and Western support at large, Wilberforce will meet Lincoln "U" with great vim and determination that has never been exceeded.

Wilberforce is well supplied with star coaches. Coach Leon Taylor, star half-back of Oberlin College, Harvard, star line-man of Dartmouth College, and the Alumni interest is not lacking. Dr. Patterson, former center of Wilberforce University's football squad and an alumnus, appeared on the campus, Monday evening, to aid in strengthening the Wilberforce line.

Cedarville College Notes

Friday, Oct. 21, the Cedarville College and the Antioch College football teams met in conflict on the Antioch field. Both teams played good games. Antioch winning by a score of 7-0. The Cedarville team was accompanied to Yellow Springs by a large crowd of rooters who were very ably led in yells by the cheerleaders, Mr. Willis and Miss Arnold. A good game is anticipated on Nov. 11 when Antioch plays a return game at Cedarville. We are also looking forward to the game with Wilmington, Friday, Oct. 28, at Wilmington.

The Junior Class, catching the spread fever from the lower classes held a spread at the home of the Misses Nettie and Ruth Shaw, Friday evening. A good time, which is characteristic of the college groups was had by playing various games. When the crowd broke up they discovered that, by some unaccountable means, three of the machines had disappeared from the Shaw home. Later the machines were found in Cedarville. This prank, played by members of the other college classes, only added to the evening's enjoyment.

Wednesday morning the Young Men's and Young Women's Christian Associations held their weekly meetings. The subject discussed by the Y. M. C. A. was "Self Control." Mr. Dwight McKune led the meeting. Miss Ruth McPherson led the discussion in the Y. W. C. A. Meeting, in which the characteristics of "Sparrows and Larks" were compared with the characteristics of humanity.

On Monday night, Oct. 24, the Orange and Blue Literary Society held its bi-monthly meeting at the college. A very interesting program had been arranged and was well carried out. Mr. Earle Collins is a capable president. The various speakers, actors and singers for the evening held the closest attention of the audience.

The Bible reading contest will be held November 22 at the R. P. Church. The entire Oratory class will take part. Everybody is invited.

Union services were held at the U. P. Church Sabbath evening. The College had charge of the services. Mr. Dwight McKune preached the sermon. His text was "I am the Way, the Truth and the Life." He gave a very interesting discourse on this text.

The college held an election in chapel, Monday morning for the purpose of deciding if we should do away with spring vacation and

get out a week earlier in the summer. Since the vote was in the affirmative the college will close on June 9.

KENTUCKY GIRL WRITES LETTER

How She Was Restored to Health by Lydia E. Pinkham's Vegetable Compound

Sunnyside, Ky.—"I suffered for more than two years with my back and nervousness, and was not able to help my mother do the housework. I took treatment from two doctors and they did not do me any good. Mother saw Lydia E. Pinkham's Vegetable Compound advertised in the paper and I took about ten bottles. It has done me a great deal of good. I weigh 138 pounds and am in good health. I will gladly recommend Vegetable Compound to anyone who suffers with the troubles which I had, and you are welcome to publish my testimonial."—VELMER HENDRICK, Route 1, Sunnyside, Ky.

To many American girls life is often a heavy drag in consequence of illness, and every mother should heed the first manifestations, such as cramps, backaches, headaches and nervousness as Mrs. Hendrick did for her daughter, and give Lydia E. Pinkham's Vegetable Compound a fair trial. For over forty years this old-fashioned root and herb medicine has been relieving women of just such troubles.

Write Lydia E. Pinkham Medicine Co., Lynn, Mass., about your health.

What Do You Know About Your Blood?

Is It Normal? Is It Rich? Is It Free of Waste Products? Is It Pure?

How the Test May Be Made.

In justice to yourself and your loved ones you should know the truth about your blood—for who knows at what time he or she will be called upon to stand this test.

Ask yourself these simple questions: Do I feel tired when I get up in the morning? Am I all fagged out at night? Is my face pale and drawn? Do I suffer with pains in my muscles and joints? Am I subject to any skin disease? Have I any pimples or boils?

Nature is warning you if your answer to any of these questions is "Yes." Nature now needs help. She has done her best but is failing.

Listen to nature's warning. Your blood is your fountain source of energy—therefore keep your blood rich and pure.

Our greatest health asset is to have blood which is pure and clean—blood which is free of waste products.

For over 50 years, thousands and thousands of men and women have relied on S. S. S. to clear their blood of waste products. S. S. S. will improve the quality of your blood by relieving you of the waste products which cause impoverished blood and its allied troubles—skin disorders, rheumatism and a lowered vitality.

The same qualities which give S. S. S. its beneficial effect in clearing your blood of waste products make it extremely desirable for keeping your blood in good condition.

Get S. S. S. at your druggist. Beware of substitutes. Write Chief Medical Director, Swift Specific Co., D-717 S. S. S. Laboratory, Atlanta, Ga. for special medical advice (without charge). He is helping people every day. Ask him to send you his illustrated booklet, "Facts About the Blood"—free. S. S. S. is sold by all druggists.

POLICE OFFICER TELLS INTERESTING STORY

Made Three Trips to Hot Springs But Still Was Unsuccessful in Quest. Finally Returned Home and After All Else Failed He Found Nerv-Worth Gave the Long-Desired Relief from His Troubles.

"I can now go on duty feeling like a new man," said Clyde E. Vitte of Morgantown, W. Va., police force. "One bottle of Nerv-Worth did me more good than three trips to Hot Springs. I had been bothered with Stomach trouble for about eight years. My food didn't digest properly and I was constantly bothered with gas forming on my stomach. I took treatment at Jacksonville, Fla., at Hot Springs, but got only slight relief. I was forced to lay off on account of my condition. I couldn't sleep nights, my stomach pained me constantly and nothing that I ate would agree with me. I took several different preparations but got no relief, so finally I tried Nerv-Worth and the first bottle did me more good than the three trips to Hot Springs. My stomach no longer bothers me and I sleep like a log. I can

and do recommend Nerv-Worth highly and hope that it helps others as it has helped me."

Thousands of cases like this have found that Nerv-Worth gave the desired results and gave them quickly. Its action in stomach and nervous afflictions is really remarkable. For year it has been doing the work wherever sold and thousands of satisfied users from all part of the country have vouched to its merit. Many have rightly termed it "The Miracle Medicine," and the results it gives in many cases is quite often miraculous. It acts in a sensible way, over come the troubles and gives pleasing and lasting relief. It neutralizes poisonous gas-forming acids in the stomach. It drives out impurities, make for proper assimilation, thus affords nutrition. It whets the appetite and tones the whole digestive system. At the same time it has a tonic action. It gives nerve force, aids in overcoming nervous ills, tones and invigorates the whole system. It contains no narcotics, coal tar products or nauseating oils.

TODAY'S TALKS

NOBODY HOME!

I sat in a business conference the other day. Every once in a while a real idea would be born and then it would walk around the room and the different people would look it over.

All of a sudden one of the men in the conference exclaimed: "Ah, I have it. Bill Blank of the Blank Company will grab at such an idea."

And so the telephone was called into the conference. It was nearly half past two in the afternoon. But the man wanted had not returned with luncheon. Then another man was asked for. No one knew where he was.

One reason why normal business is not resuming is that too many folks are "out to lunch"—and too few are on the job.

Someone once remarked that though Opportunity might knock and knock at one's door he should not be expected to kick the panels in!

There must be someone home when ideas come—somebody home when your chance calls.

I saw a man walk into a prominent store the other day. He looked around, glanced at some of the things displayed, then turned around and walked out! I noted that one of the salesmen nearest stood telling a story to some man. Soon this man left—but the man who did not get what he went into the store to get may never come back again. To him there was nobody home there.

I am wondering if the simple and extremely common virtues which have done such marvelous work during the past may not be just as useful and essential now—when they are really needed most.

Chicago Man Says He Knows From His Own Experience What Tanlac Will Do.

"Those who are looking for something to sharpen their appetite and give them new life and energy ought to try Tanlac, for I have taken the medicine myself and know what it will do," said Homer H. Dickson, Sherman Hotel, Chicago. Mr. Dickson came to Chicago from Miami, Fla., where he has lived most of his life, and is now connected with the Bond Sales Department of the Hoot Realty Co.

"When I began taking Tanlac I was weak and run down and badly in need of something to build up my system and give me some strength. My appetite had failed me, and even what I managed to eat gave me very little nourishment. I was nervous and restless at night, couldn't sleep well, and had that worn-out, good-for-nothing feeling all during the day. Why, I was so miserable I didn't feel like doing any kind of work."

"About fifteen months ago I began taking Tanlac, and the medicine built me up and made me feel like I wanted to feel. It gave me a fine appetite, set my stomach in order so that my food gave me strength and energy, and I was soon rid of that weak, worn-out feeling and enjoying the best of health. My sleep became sound and refreshing, and I just felt like a man made new. I have been feeling fine ever since, and believe Tanlac will do the work for anyone else."

Tanlac is sold in Xenia by Sayre & Hemphill and all leading druggists everywhere.

Druggist Gives People Here the Benefit of His Years of Experience.

"Twenty five years ago I began my career in business as a druggist being connected with the Baker Drug Co., located at Clark and Van Buren streets in Chicago, Ill.," says Thomas Ryan, now a resident of Pittsburgh, Pa., at 633 Fifth Avenue.

I am a graduate of the Cincinnati, Ohio, College of Pharmacy.

"After my long experience with medicines, I feel that I am in a position to judge the good from the bad as well as it is possible for the average man to do.

"Recently I contracted a severe cold. It weakened my system. I took Peppen and found it to be a good builder and tonic. I paid particular attention to the effect of Peppen while I was taking it and found it to be an unusually good appetizer, tonic and strengthener.

"I am glad to recommend Peppen."

Peppen is made from roots and barks which have remarkable tonic, appetizing and laxative powers. Sick headaches, dizzy spells, sallow complexion, nervousness, sleeplessness, under weight and many other ailments are frequently due to slow or feeble digestion or to habitual constipation. When such is the case, Peppen seldom fails to give relief.

Peppen is a new system medicine which is being specially introduced at Sayre & Hemphill's.

THE DOOR SLAMS ON HAPPINESS

Poor Blood Makes
Bad Health — Then
Come the "Blues"

Once the vigor of red blood becomes sapped of its strength the door to happiness is literally slammed. Weariness of body follows and it unfailingly engenders depressed thoughts. To be reserved and cheerless becomes a habit. After a time there is an almost filmy dimness in the expression of the eyes and a pallor to the skin. Das seem dull and dark and difficult. A sense of insufferable gloom pervades the spirit.

Then it is that Gude's Pepto-Mangan is the great help. It is a red blood builder. It puts red into the blood—increases the number of corpuscles which make blood rich and red. When the blood is restored to its natural healthy state, the sensation of well-being returns. Instead of shuffling along carelessly, there is the firm and springy step, the bright lusterful eyes, the clear complexion identified with the strength and vigor of good health. The druggist has Gude's Pepto-Mangan in both liquid and tablet form. adv

TODAY'S TALKS

NOBODY HOME!

I sat in a business conference the other day. Every once in a while a real idea would be born and then it would walk around the room and the different people would look it over.

All of a sudden one of the men in the conference exclaimed: "Ah, I have it. Bill Blank of the Blank Company will grab at such an idea!"

And so the telephone was called into the conference. It was nearly half past two in the afternoon. But the man wanted had not returned with luncheon. Then another man was asked for. No one knew where he was.

One reason why normal business is not resuming is that too many folks are "out to lunch"—and too few are on the job.

Someone once remarked that though Opportunity might knock and knock at one's door, he should not be expected to kick the panels in!

There must be someone home when ideas come—somebody home when your chance calls.

I saw a man walk into a prominent store the other day. He looked around, glanced at some of the things displayed, then turned around and walked out! I noted that one of the salesmen nearest stood telling a story to some man. Soon this man left, but the man who did not get what he went into the store to get may never come back again. To him there was nobody home there.

I am wondering if the simple and extremely common virtues which have done such marvelous work during the past may not be just as useful and essential now—when they are really needed most.

BOND SALESMAN OUT WITH FACTS

Chicago Man Says He Knows From His Own Experience What Tanlac Will Do.

"Those who are looking for something to sharpen their appetite and give them new life and energy ought to try Tanlac, for I have taken the medicine myself and know what it will do," said Homer H. Dickson, Sherman Hotel, Chicago. Mr. Dickson came to Chicago from Miami, Fla., where he has lived most of his life, and is now connected with the Bond Sales Department of the Hoot Realty Co.

"When I began taking Tanlac I was weak and run down and badly in need of something to build up my system and give me some strength. My appetite had failed me, and even what I managed to eat gave me very little nourishment. I was nervous and restless at night, couldn't sleep well, and had that worn-out, good-for-nothing feeling all during the day. Why, I was so miserable I didn't feel like doing any kind of work."

"About fifteen months ago I began taking Tanlac, and the medicine built me up and made me feel like I wanted to feel. It gave me a fine appetite, set my stomach in order so that my food gave me strength and energy, and I was soon rid of that weak, worn-out feeling and enjoying the best of health. My sleep became sound and refreshing, and I just felt like a man made new. I have been feeling fine ever since, and believe Tanlac will do the work for anyone else."

Druggist Gives People Here the Benefit of His Years of Experience.

"Twenty five years ago I began my career in business as a druggist being connected with the Baker Drug Co., located at Clark and Van Buren streets in Chicago, Ill.," says Thomas Ryan, now a resident of Pittsburgh, Pa., at 633 Fifth Avenue.

I am a graduate of the Cincinnati, Ohio, College of Pharmacy.

"After my long experience with medicines, I feel that I am in a position to judge the good from the bad as well as it is possible for the average man to do.

"Recently I contracted a severe cold. It weakened my system. I took Peppen and found it to be a good builder and tonic. I paid particular attention to the effect of Peppen while I was taking it and found it to be an unusually good appetizer, tonic and strengthener.

"I am glad to recommend Peppen."

Peppen is made from roots and barks which have remarkable tonic, appetizing and laxative powers. Sick headaches, dizzy spells, sallow complexion, nervousness, sleeplessness, under weight and many other ailments are frequently due to slow or feeble digestion or to habitual constipation. When such is the case, Peppen seldom fails to give relief.

Peppen is a new system medicine which is being specially introduced at Sayre & Hemphill's.

THE DOOR SLAMS ON HAPPINESS

**Poor Blood Makes
Bad Health—Then
Come the "Blues"**

Once the vigor of red blood becomes sapped of its strength the door to happiness is literally slammed. Weariness of body follows and it unfailingly engenders depressed thoughts. To be reserved and cheerless becomes a habit. After a time there is an almost filmy dimness in the expression of the eyes and a pallor to the skin. Das seem dull and dark and difficult. A sense of insufferable gloom pervades the spirit.

Then it is that Gude's Pepto-Mangan is the great help. It is a red blood builder. It puts red into the blood—increases the number of corpuscles which make blood rich and red. When the blood is restored to its natural healthy state, the sensation of shuffling along carelessly, there is the firm and springy step, the bright lusterful eyes, the clear complexion identified with the strength and vigor of good health. The druggist has Gude's Pepto-Mangan in both liquid and tablet form.

And it's HERE, at the door! The portals of the new age are swinging open and many will enter and never die.

ELECTION BOARD MEETS ON THURSDAY

The Greene County Board of Election held its "twelfth day" meeting Thursday afternoon, so-called because it is held twelve days before each election.

Judges and clerks in precincts all over the county were appointed and approved at the meeting, and 282 of these election officials will be on the pay roll at the November election.

The board will not attempt to take all of the election results over the telephone from precincts at the board of election room in the Court House election night, according to custom, said Clerk Paul H. Cresswell, Thursday. Instead officials will be asked to telephone only the results of the city commission fight and bond issues. Poll books will not be called for election night, it is said.

LEGION FOOTBALL TEAM WILL PLAY

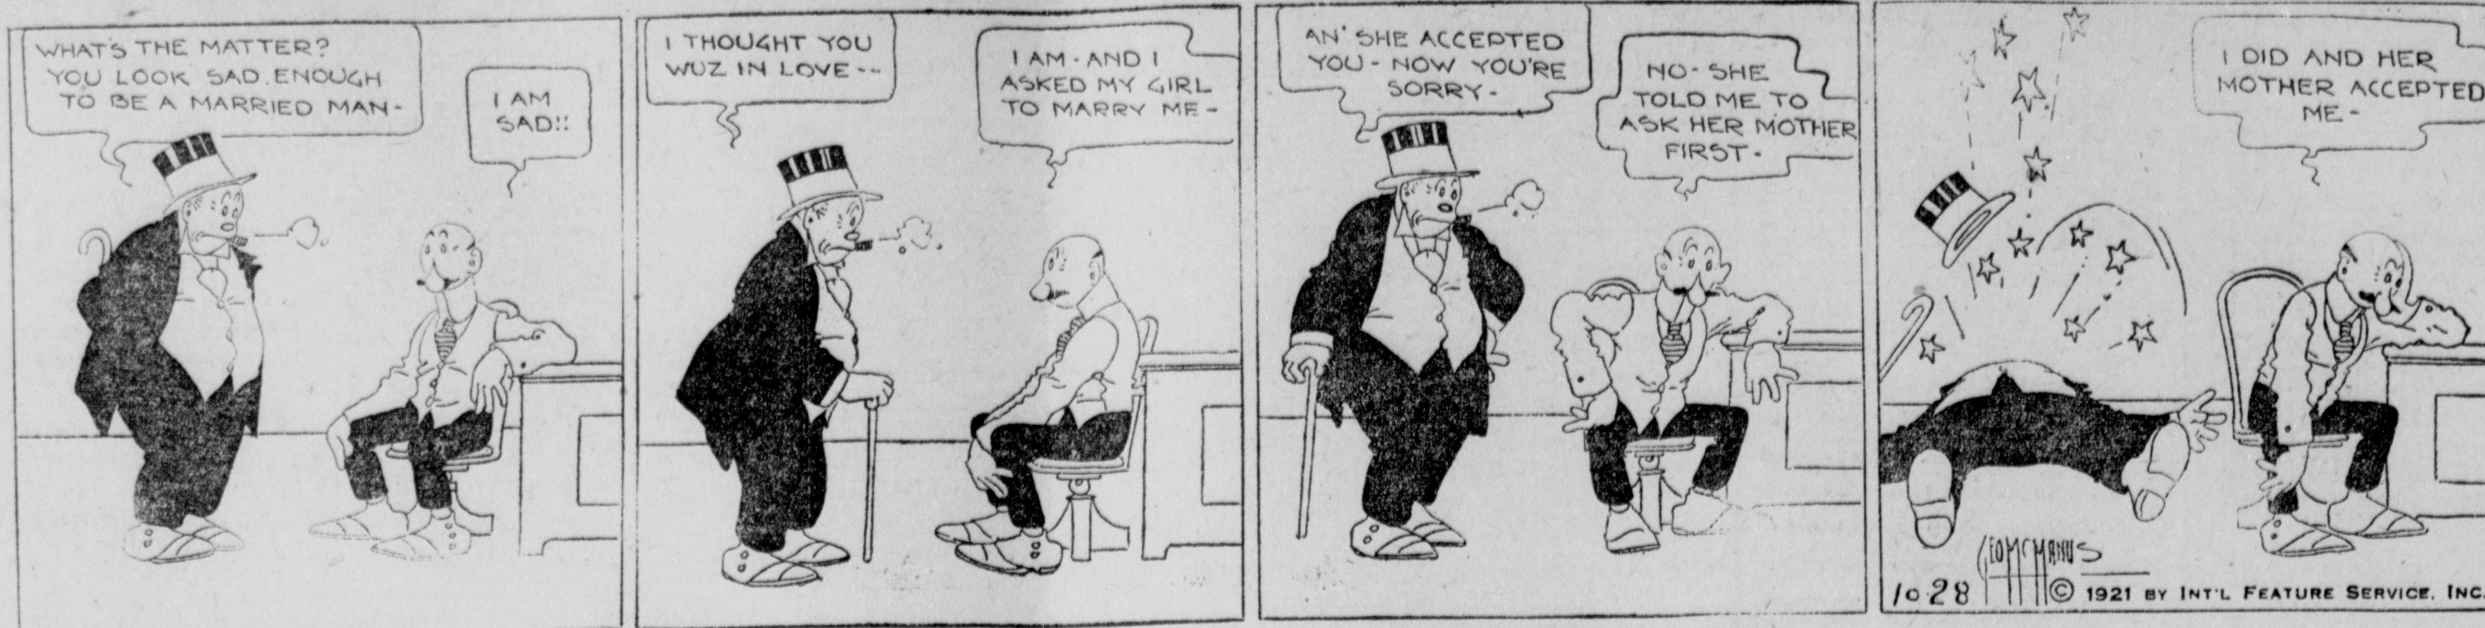

The American Legion football team will meet the Dayton Independents at Gatch Field, Sunday afternoon, according to announcement of the management.

The Legion eleven has come to the middle of its season's schedule, with a good reputation and considerable record. The team has participated in five games, losing but one of them, and that to the Middletown Miamis. Teams which have fallen before them are the North Dayton Merchants, the Dayton Mascottes, the Dayton Blackstones and the Piqua Cavalry Troop team.

A number of veteran gridders have donned the moleskins again with the team in the last two games, and the club is gradually becoming the strongest independent aggregation that ever played here.

"JUST HOW" TO MAKE A GOOD CUSTARD

It is a peculiar fact that many a woman who can do the most difficult kind of fancy cookery, cannot bake a simple cup custard successfully. This no doubt, is because in many homes custards are not popular.

Every housekeeper should know how to make this simple dish, however, in case of family illness, when such foods are required. And of course the mother of small children should bake the dish frequently.

THE NEW GENERATION

By Jane Phelps

TWO DINNERS AT THE ST. REGIS CHAPTER 75.

After Craig had left her Margaret again surveyed herself in the mirror.

"I'm perfectly shameless," she muttered, a smile lingering about the corners of her mouth. "Here am I almost old enough to go to the old ladies' home and planning to do perfectly outrageous things, flirting and things I never even thought of doing before."

In the apartment above her someone was singing an aria from one of the new operas. Margaret also hummed it. When the singer stopped Margaret went on letting her glorious voice ring out in its fullness. She was happy, there was something within that made her feel happy as well as pretty. She felt romantic, sentimental, foolish—and gloried in it.

"Won't feel 38—not for a long time," she declared as she dressed for dinner. She was to dine with Craig and some of his friends at the St. Regis.

She put on one of her prettiest dresses. She looked charming and knew it. She both looked and felt young, and that added to her pleasure.

"You look perfectly lovely!" Mrs. Walters said when she stopped for her dinner. She was to dine with Craig and some of his friends at the St. Regis.

"I don't wonder Craig is in love with you. Why do you tease the poor fellow so?"

"I have other things than love to think about."

"It's Joan again! What has the child been up to now?"

"Nothing new, just expressing herself as usual."

"I should just die if that girl belonged to me. Yet she is very sweet and attractive."

"Yes—she is!" Margaret said with emphasis.

A few moments after Craig's party was seated and he had whispered to Margaret that she looked perfectly lovely, and that he loved her, there was a stir nearby as the head waiter seated two people at a small table.

With a gasp Margaret recognized

Joan and with her was a very distinguished looking man of about 30 or 40 years. Joan had on the new frock Margaret had given her, and look adorable. A thrill of pride ran over Margaret—only to give way to one of anxiety. Who was the man? Where had Joan met him?

There could be no greater contrast than between him and Dean Tennant, and it's sort. This man, tall, dark, exquisitely groomed, was evidently to the manner born and was evidently much intrigued with little daughter, whose golden bobbed head leaned over toward him.

Suddenly Joan saw her mother. She half rose from her chair, then nonchalantly sank back again, giving her mother the most careless or slight nod—evidently telling the man something as he also looked over.

Joan lighted a cigarette with all the grace of the accustomed smoker. She chatted and laughed with poise and self-assurance of the society woman, and she looked like an innocent angel. Margaret almost groaned aloud. How could she wait until the next day to learn all about that man?

She ate very little, watching Joan. Craig was distressed until he saw the reason for her lack of interest.

"Express yourself!" he said to Margaret in a stage whisper. "Don't let her put one over on you. Eat your dinner. She is evidently enjoying hers."

Margaret tried to do as Craig ordered. The conversation became general, and for a few moments she forgot to watch Joan. Suddenly she heard her voice.

"Goodnight, Mumsie! We're going to one of the clubs to dance," and before Margaret could reply, Joan had left.

Going to some club to dance, and it was 10 o'clock then—and with a strange man! Margaret half rose as if to follow, then a humorous glance from Craig warned her. She sank back but her eyes tried to catch a glimpse of Joan from the window.

"The dear!" she said to herself. "I do hope he is all right."

It was after 11 when she reached

home. Craig begged to come in for a few moments, but Margaret was too disturbed over Joan to wish to chat even with him. At half past 12 her telephone rang.

"Hello, Mumsie! I've just got home. Had to tell you what a perfect time I had tonight."

"Yes, dear—who was that with you?"

"Wasn't he a peach? He's an artist, has a studio up-town. A perfectly bully fellow."

"But Joan he is over 40!"

"That doesn't count in a man! he's Martha's cousin. She had a headache, so he took me without her. Nighty-night, Mumsie! I'm almost dead for sleep."

A sigh of relief broke from Margaret's lips as she hung up the receiver—Martha Hardy's cousin! but she wished Joan hadn't smoked.
